

Sizing Unit Questionnaire

Call our Technical Dept. (800) 325-6442 at ext 2, to discuss your application, or fill in your answers, and fax or email us at: *Fax:* (203) 598-3401 or *email:* Sales@LogicSeal.com and either our Production Manager, Gary Rogers or our Sales Manager Barbara Gradia will get back to you with the right Unit that will fit your requirements. ~ **Guaranteed to Stop Leaks!**

What Voltage do you need? *Circle one of the following:*

(240v, for 3-phase) (480v, for 3-phase) (110v, for 1-phase) (220v, for 1-phase)

Supply Pressure: _____

(Water supplied by Tower, Chiller, or Temperature Controller)

Drain / Return Pressure: _____

(Water returning to Tower, Chiller, or Temperature Controller)

GPM required to the Mold Circuit the Unit will operate: _____

If you do not know the GPM give the following:

a) Diameter of cooling line into the Mold Circuit: _____ in inches

b) Number of lines directly into the Mold Circuit _____

(Not Manifolds feeding Mold Circuit)

c) Length of Circuits _____ in inches

d) Can the leaking Circuit be isolated? Yes ___ or No ___

e) If so what would the number of lines be for the isolated Circuit? _____

Would you like temperature control of the Circuit? Yes ___ or No ___

What is the maximum temperature? _____
